

LIST OF QUESTIONS TO THE PANEL REGARDING LINEFISH

- 1) Review and comment upon the refined Bayesian surplus production assessment **method** put forward in document MARAM/IWS/2017/Linefish/P2

Note that the application of the method included in this document is only to provide an example of the method's implementation, and the associated results themselves are not for review.

- 2) Review and comment broadly (and in more detail only if time permits) upon the simulation approach put forward in MARAM/IWS/2017/Linefish/P3 for testing the performance of the refined Bayesian surplus production assessment method of Linefish/P2
